SOCRATIVE
CLASSROOM APP FOR FUN, ENGAGEMENT

Socrative is app (and web based solution) for fun and effective classroom engagement. You can get instant insight into student learning with easy-to-create quizzes, polls, exit tickets and other.

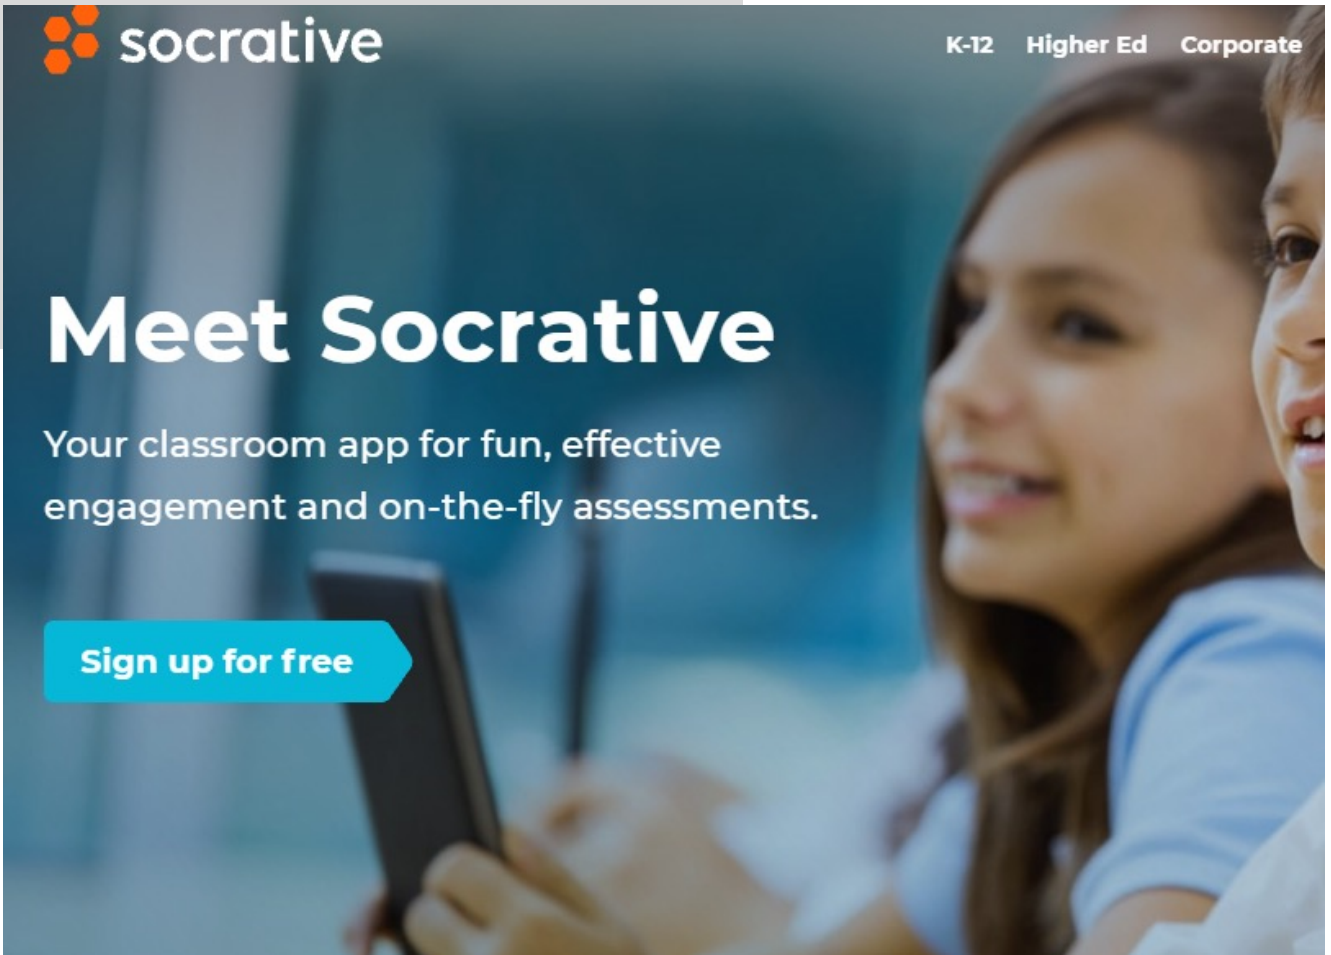
Responsive feedback tool

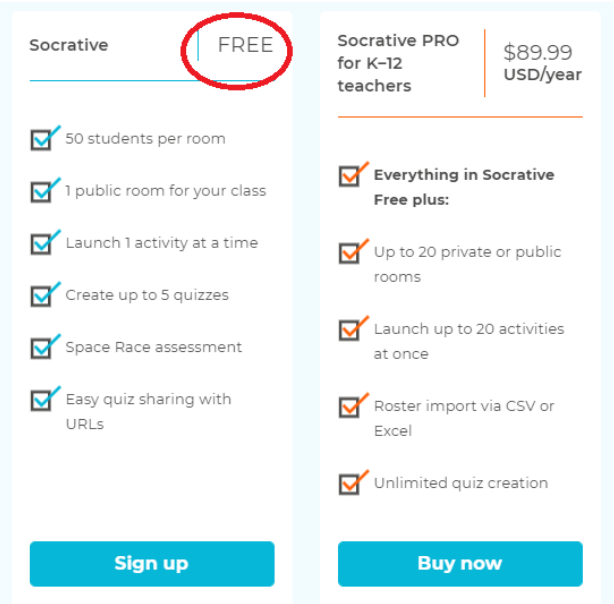
Socrative allows the teacher to not only build his or her own quizzes, but also to import quizzes from the store or even copy other teacher quizzes (if shared).

This tool is good as it gives the opportunity to students to see the live progress of their results.

Cloud-based solution

Socrative is a **cloud-based** (fully online) student response system developed in 2010 by Boston-based graduate school students. It allows teachers to create simple quizzes that students can take quickly on laptops – or, more often, via classroom **tablet** computers or their own **smartphones**.





Choosing «Free plan» always gives you various options in order to be effective – because the tools included gives enough of options

When register – choose a «Teacher account» and you can fill the information for the organisation you work for.

Choose the role of a administrator.

Once students connect to your room, they'll see a message that says "Waiting for next activity to begin". Once you launch a quiz, it'll automatically be shared with students so they can start working on it. In **Socrative** students answer questions in order and skip questions or change their answers.

Make sure that students don't use the opportunity of choosing and filling the quiz multiple times (by choosing other names)

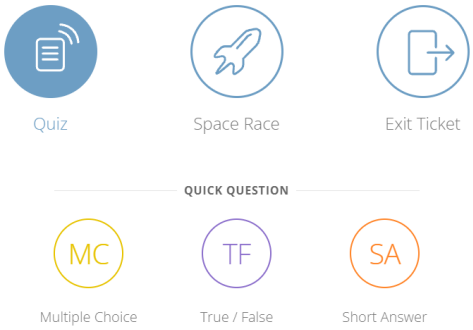
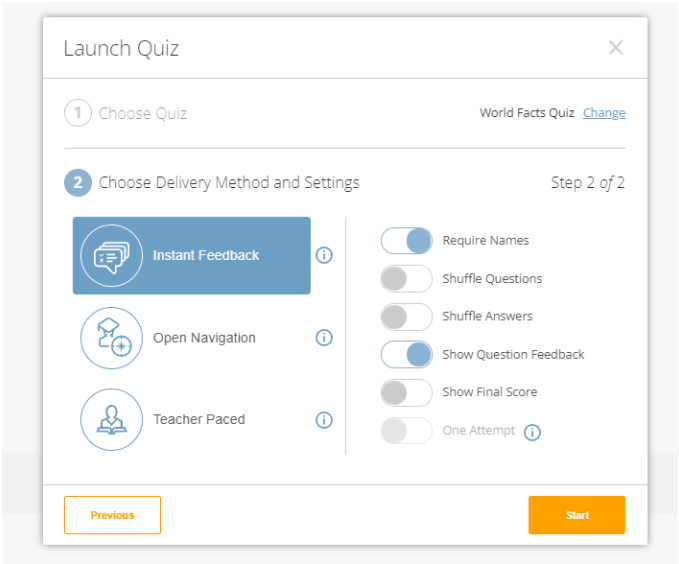
CREATION OF QUIZ OR QUICK QUESTIONS

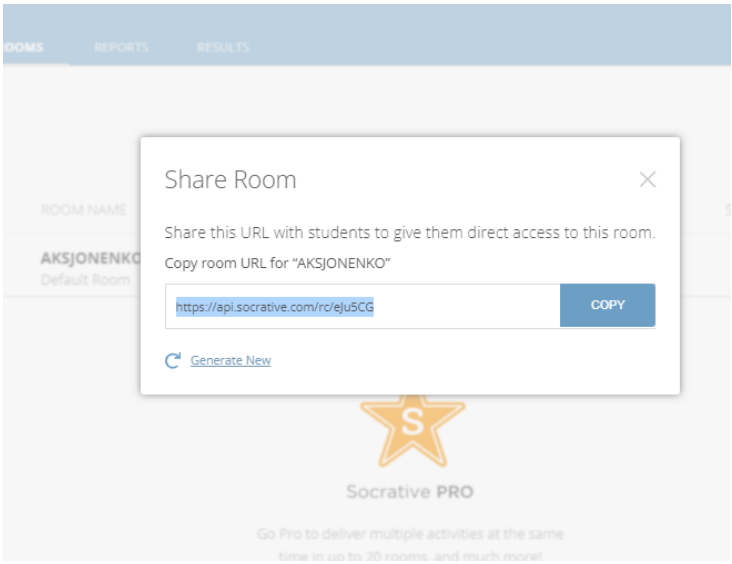
You can choose settings of adding options like – should your students show the names, and will there be a feedback provided.





Easiest option – Quiz (test) or quick question

This magazine ncludes publications contain pictures, reviews, illustrations.



QUIZ can be sent as invitation fo students

It is easy to share and copy the invitation link

It is not required for a student to register. It is enough if only they show their names.

Students can fill the quiz within the lecture or given period of time at their conveniece.

Useful for a quick knowloedge test and express questions

Quick repsonse tool **mentimeter.com**

Easy-to-build presentations, interactive

- *polls,*
- *quizzes*
- *word clouds mean more participation engagement*

Preparation

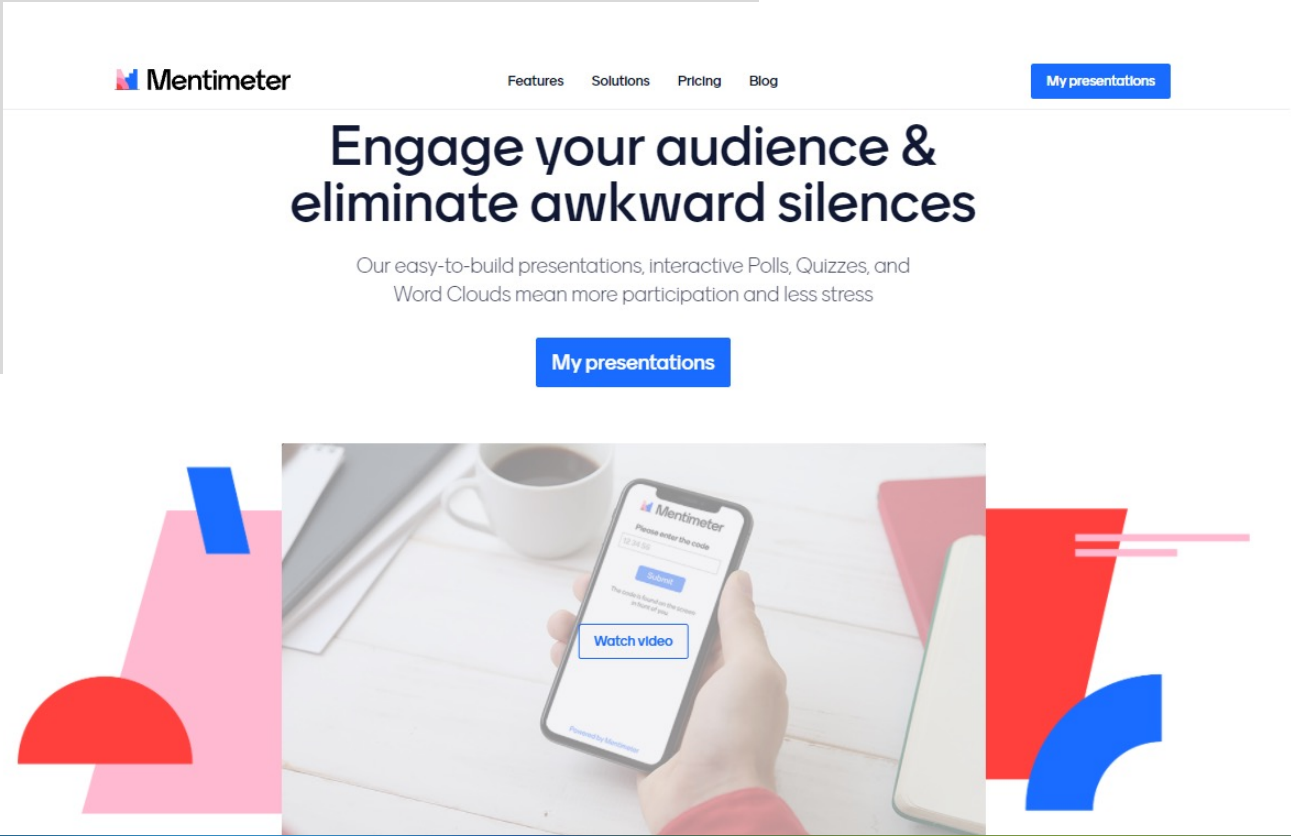
You can build presentations with the easy-to-use online editor. Add questions, polls, quizzes, slides, images, gifs and more to your presentation to create fun and engaging presentations.
Tool works similar like Microsoft power point product. No additional digital skills needed.

Engagement and follow- up

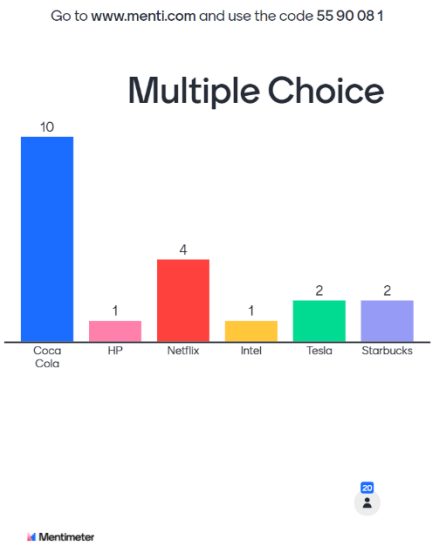
Your audience can use their

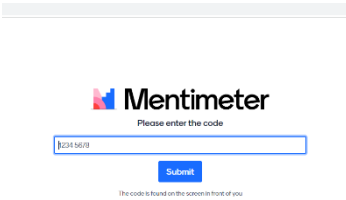
- smartphones
- tablets
- computers

to connect to the presentation where they can answer questions. Shortly afterwards you can visualize their responses in real-time to create a fun and interactive experience.

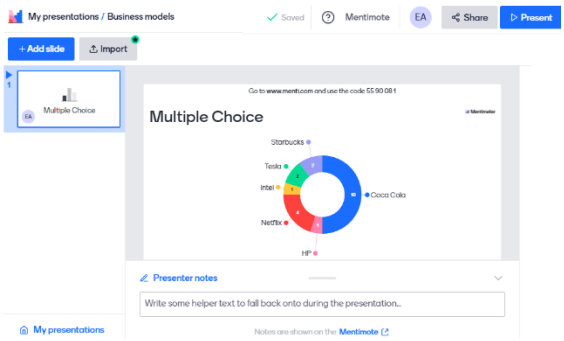


Co-funded by the European Union



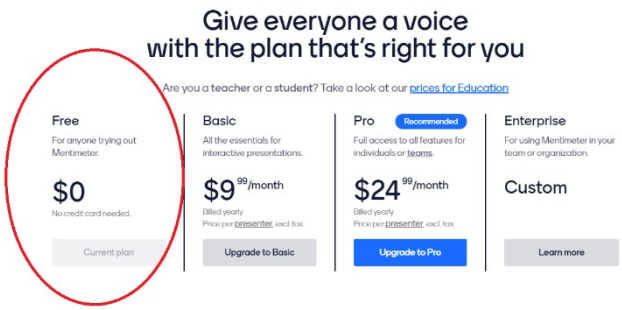


When you are asked to fill the answers – enter menti.com and the number/code given



Multiple ways of creating questions

Great thing about mentimeter – you can show answers of people in real life (teacher/presenter) controls the content and public on screen display of it



Analysis and follow-up

Once your Mentimeter presentation is over, share and export your results for further analysis and even compare data over time to measure the progress of your audience.

Great options at the free plan! (no need to additionally pay)

[illegible]k for students/audience

- **Mentimeter.com – link and log in for content creation**

Open-source learing platform **Moodle**
